OBJECTIVE

A highly motivated and enthusiastic Computer Science Engineering graduate from Trident Academy of Technology, seeking a challenging position as a Software Engineer. Eager to apply my programming skills, problem-solving abilities, and passion for technology in a dynamic and growth-oriented environment.

Education

Trident Academy of Technology, B.Tech. in Computer Science and Engineering Sept 2021 – May 2025

- CGPA: 7.3/10

East Science Higher Secondary School, 11th and 12th in the Science stream June 2019 - March 2021

- Percentage: 75.83

Experience

Remote Internship, TECHOCTANET SERVICES Pvt. Ltd. Aug 2024 – Sept 2024

- Developed Web Applications using HTML, CSS and JavaScript. Tested and Debugged code for compatibility across multiple browsers.
- Optimized website performance by implementing caching techniques. Provided technical support to users experiencing problems with websites.

Projects

My Portfolio Website :- July 2025

- Designed and developed a personal portfolio website to showcase projects, technical skills, and contact information with a modern and responsive user interface.
- Tools used: React.js, Next.js, TailWind CSS

Doctor Appointment Booking System :- (Academic Major Project) Jan 2025 – May 2025

- This project aims to develop a Doctor Appointment Booking System that addresses inefficiencies in traditional healthcare scheduling. The system facilitates an online platform where patients can register, search for doctors, and book appointments based on real-time availability. Doctors can manage appointments and view patient details. The application reduces administrative burden and supports secure online transactions.
- Tools used: React.js, Node.js, Express.js, TailWind CSS, and MongoDB

Online course website :- (Academic Minar Project) Aug 2024 – Oct 2024

- Developed an interactive online course platform that allows users to browse, enroll, and track progress on various courses. Implemented real-time user management, secure authentication, and structured course content delivery to enhance the digital learning experience.
- Tools used: HTML, CSS, JavaScript, Firebase

Skills

Languages: Python, JavaScript

Technologies/Frameworks: HTML, CSS, TailWind CSS, Next.js, Node.js, Express.js, React.js, and MongoDB

Behavioral Skills: Leadership, Team player, Adaptability, Problem solving
